## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I began tutoring while pursuing my medical studies, guiding aspiring medical students through UCAT preparation, interview techniques, and personal statement crafting. I find great fulfillment in supporting students on their path to achieving competitive scores and successful university applications.

Over the years, I've tutored students in A-Level Biology and Chemistry as well, tailoring my approach to ensure students master complex topics and feel confident for exams. Working across diverse curriculums, I've helped students from various backgrounds secure places in top UK medical schools.

In addition to UCAT tutoring, I offer support for GCSE-level Science, focusing on building foundational knowledge. Many of my students have gone on to achieve high scores and enter competitive programs, benefiting from the structured guidance I provide.
